

Nikhil Guggilla

850-284-0679 | LinkedIn | nikinikhil67@gmail.com | Tallahassee, FL, 32304

Professional Summary: Backend Developer with 4+ years of professional experience specializing in Java (Spring Boot) and the design of scalable Microservices. Proven ability to drive efficiency by improving debugging speed by 40% and cycle efficiency by 30%. Certified SQL specialist with expertise in managing heterogeneous data sources, AWS, Docker, and CI/CD pipelines. M.S. in Information Technology from FSU (GPA 3.95) focusing on enterprise architecture and microservices security.

Technical Skills

- **Languages:** Java (Spring Boot), Python (Utilities), SQL (Certified), JavaScript, HTML.
- **Cloud Computing & DevOps:** Docker, AWS, Jenkins, CI/CD, Amazon S3, Kubernetes, Terraform, Orchestration.
- **Architectural Patterns & Messaging:** Microservices (Spring Cloud), Event-Driven, REST, Idempotency, Backpressure, Batch/Stream Processing, Messaging, Apache Kafka, Redis, Pivotal.
- **Data Storage:** SQL (PostgreSQL/SQL Server), ETL/ELT, CDC (Change Data Capture), Hibernate, Storage, Data Storage.
- **Frameworks & Methodologies:** Security & Auth (OAuth2, JWT), Machine Learning (ML), Quality Assurance, Management, ADA compliance, FAR regulations, Recruiting.
- **Testing & Tools:** JUnit, Postman (REST/GraphQL Testing), SonarQube, Git, JIRA, Eclipse, STS.

Professional Experience

Management Systems Analyst II | Florida Department of Highway Safety and Motor Vehicles |
Apr 2026 – Present

- Review and evaluate WRAP documents and support grant-related technical initiatives to ensure project alignment and compliance, adhering strictly to FAR and ADA accessibility guidelines.
- Extract, query, and analyze complex datasets from the DAVID and CRSCAN databases using advanced SQL to support critical state data operations.
- Develop front-end data visualizations and reporting dashboards using Tableau for the Signal Four application and ORION software suite, optimizing overall data management capabilities.
- Provide dedicated technical assistance and customer support to internal stakeholders, resolving system inquiries and ensuring seamless operational workflows.
- Support departmental Management and technical Recruiting efforts by assisting in candidate evaluations and workflow optimizations.

Backend Engineer | Backbase Pvt. Ltd | Aug 2023 – Dec 2023

- Engineered and developed microservices for banking products using Java, Spring Boot, and REST APIs.
- Developed and integrated 15+ RESTful APIs using Spring Boot and Hibernate for WSECU's digital banking services, deploying Data Storage assets on Amazon S3.
- Automated 100+ test cases using JUnit and Postman, enhancing stability and reducing manual QA by 40%, ensuring rigorous Quality Assurance.
- Debugged and resolved 30+ backend bugs and memory leaks, reducing response time by 25%.

- Deployed services using Docker containers and ArgoCD with zero-downtime.
- Collaborated with mobile and desktop teams to reduce API latency and improve UX.
- Architected Pivotal cloud solutions and Machine Learning (ML) data pipelines to process high-volume banking telemetry.

Programmer Analyst | Cognizant Pvt. Ltd | Nov 2022 – Jul 2023

- Built 20+ full-stack features and APIs for JPMorgan Chase using Spring Boot, Java, Angular, and MySQL.
- Wrote 150+ JUnit test cases and 25 integration tests, achieving 92% test coverage.
- Fixed 40+ UAT and production issues, reducing client-reported bugs by 35%.
- Optimized APIs and SQL queries, improving backend throughput by 20%, utilizing PostgreSQL and Redis for advanced data caching.
- Integrated Messaging architectures utilizing Apache Kafka to streamline communication between internal application modules.
- Mentored 3 junior devs on Spring Boot and Angular modules.

Senior Analyst | HCL Pvt. Ltd | Sep 2019 – Oct 2022

- Developed 25+ microservices for FINEOS, improving claims and onboarding functions.
- Executed 200+ test cases with a 97% pass rate.
- Resolved 50+ critical issues, reducing average bug resolution time from 5 days to 2 days.
- Deployed microservices using Docker and AWS Cloud, achieving 30% faster release cycles.
- Integrated Orchestration tools including Kubernetes and Terraform into the CI/CD pipeline to improve Cloud Computing resource allocation.
- Authored 10+ LLDs aligned with HLDs for key modules.
- Conducted peer reviews with 98% accuracy.
- Collaborated with stakeholders to gather requirements and propose scalable Storage solutions.

Education

- **Master of Science, Information Technology** | Florida State University | GPA: 3.95/4 | Grad: Dec 2025
- **Bachelor of Technology, ECE** | Vaagdevi College of Engineering | GPA: 7.5/10 | July 2019
